

Department of Computer Science & Engineering

MEWAR UNIVERSITY

Chittorgarh, Rajasthan

Department of Computer Science & Engineering

ABOUT US

- ▶ The Mewar University, Computer Science & Engineering Department is one of the leading computer department in the Mewar region.
- ▶ Since its inception, the department has been recognized all over the world for research & teaching including Nigeria, Yemen, Syria, philistine, Soudan, Afghanistan, Nepal etc.
- ▶ Our faculty members have produced more then 121 publication in Google and Scopus indexed journal including six number of Indian patents .
- ▶ Our department has collaboration from IIT Bombay, IIT Delhi and Cisco for certificate course.

ACADEMIC PROGRAMS

❑ M. Tech.

- Computer Science & Engineering
- Information Security
- Data Science

❑ B. Tech.

- Computer Science & Engineering
- Information Technology
- Data Analytics
- Cloud Computing
- Machine Learning

❑ Diploma

- Computer Science & Engineering

❑ B.Sc. / M.Sc.

- Information Technology/ Web & Mobile Computing/Cloud Computing/ Software Engineering/ Data Science and AI/ Digital Marketing

Department of Computer Science & Engineering

WHY CSE ?

- ▶ Computing is part of daily life!
- ▶ Computing offers many types of lucrative careers.
- ▶ Computing jobs are here to stay, regardless of where you are located just like in covid-19 era all IT professionals working from home, no need to report in office physically.
- ▶ Expertise in computing helps you even if your primary career choice is something else.
- ▶ Computing offers great opportunities for true creativity and innovativeness in the field of web designing/artificial intelligence/machine learning/ data science/ networking/ GIS & Remote sensing/ software engineering.
- ▶ Future opportunities in computing are without boundaries because computer is future engineering
- ▶ High salary jobs
- ▶ High job satisfaction

Department of Computer Science & Engineering

SCOPE OF CSE

- Computer Engineering (CE) specialist focus on hardware.
- Information Security (IS) professional focus on the organization of data and information.
- Human Computer Interface (HCI) professional focus on interfaces and the organization of systems to enhance usability.
- Information Technology (IT) specialist focus on organization's technology infrastructure.
- Software Engineer (SE) leads team for designing & developing software.
- Computer Science (CS) scientists design and build software, develop effective ways of solving computing problems, and devise better ways of using computers

Department of Computer Science & Engineering

LABS OF CSE

- ARTIFICIAL INTELLIGENCE LAB
- MACHINE LEARNING LAB.
- GIS & RS LAB
- DISTRIBUTED & CLOUD COMPUTING LAB
- COMPUTER VISION & IMAGE PROCESSING LAB
- DATABASE & INFORMATION SYSTEM LAB
- WEB DESIGN & DEVELOPMENT LAB
- PROGRAMMING LANGUAGE LAB(C,C++,JAVA,PYTHON)
- RESEARCH LAB
