Circular for Ph.D. Pre-Submission Presentations- 2015

The University has decided to conduct pre-submission presentations on regular basis throughout the year for which only those scholars will be eligible who have:

- a. completed at least three years from the date of their respective RDC meetings,
- b. successfully cleared Ph.D. Course Work examination,
- c. submitted all six-monthly progress reports (6) through their supervisors,
- d. published at least two research papers in international/national journals of repute having good impact factor (preferably non-paid journals), coauthored with their respective supervisor as research scholars and visiting faculties respectively of Mewar University, Chittorgarh,
- e. cleared all pending dues; and
- f. besides having completed their proposed work, are ready for presentation of their work.

Such candidates, whenever they become eligible for pre-submission seminar, may apply to the University through their respective supervisors with the following for needful at the end of the University:

1. a certificate from the supervisor to the effect that the proposed work is an original work carried out under his/her supervision in accordance with the synopsis and is worth submission for partial fulfillment of the requirements of the Ph.D. program.
2. two copies of spiral bound draft of thesis with emphasis on research methodology adopted, data analyses, results & discussion along with suggestions for the purpose of implementation and execution etc. together with two copies of research publications.
3. soft copy of the thesis in CD for the purpose of checking plagiarized material. (Only those scholars would be allowed for pre-submission presentations whose thesis is cleared by the anti-plagiarism test)

It is worth mentioning that research scholars are supposed to defend their research work before the Pre-Submission Board by the way of power point presentation of about of 30 minutes followed by a session of questions – answers for which they should bring their PPT presentation in a pen drive. It is expected that apart from meeting out the objectives of the research work with suitable research methodology, scholars should be able to present their work to the satisfaction of the Board.

It would be better if scholars come prepared for oral presentation without reading the slides being presented. Further, they must have all the data (experimental readings/ questionnaires/ interview schedules/ photographs etc.) relevant to their research, at the time of presentation for ready reference.

Dr. C.P. Singh

Asst. Director (Research)
