

MEWAR UNIVERSITY

GANGRAR, CHITTOGARH, RAJASTHAN

Policy for Research Promotion:

Mewar University offers the best possible research facilities and environment to its students and teachers. From its very inception, Mewar University has focused on research by giving emphasis on Ph.D. programmes. A committee of renowned academicians of the country approves the topics for research, reviews the synopses guide the candidates through their various interactions with their supervisors. The committee ensures that research projects have contemporary relevance, and that research scholars rigorously follow high standards of research in pursuit of their Ph.D. programmes. Ph.D. programmes are offered in various subjects under all faculties of the University.

Research Events:

The University hosts exciting research events such as symposia, seminars and conferences throughout the year. The university by organizing such kind of events provides an excellent opportunity to participate in seminars and workshops on the contemporary knowledge and offers access to top of the line information databases and opportunity to interact with industry and academic leaders; and successful entrepreneurs, researchers, scientists and technocrats. The research scholars by participating in such events enhance the understanding about the corporate world, national & global socio-political scenario, technological advancements relevant to their subject and get a platform to judge the depth and righteousness of their theses preparation.

Research Guides:

The University has Research Guides of profound eminence and the allotment/allocation of supervisor is not left to the research Scholars or the supervisors. The allocation of the supervisor for the selected student is decided by the department in a formal manner depending on various criteria such as the number of research scholars already registered with the supervisor, the expertise of the supervisor, expertise required under specialization and the research interest of the scholar, as indicated during the interview of the candidate.

Research Department & Coordinator:

To facilitate the scholars all through its research work a full-fledged Research Department headed by the Research Dean of the University provides the support and guidance for identification of Research Supervisor by arranging interactions with experts. The University is constantly upgrading its resources to empower scholars to conduct quality research.

Interdisciplinary research at Mewar University is promoted by several means. Some of the research work being pursued by the research students/staff members is highly interdisciplinary in nature. The common research works included by the faculty of Departments of Chemistry, Physics, Life Sciences & Mechanical, Electrical, Electronics, Computer Science Engineering in a collaborative manner. There are common research projects between the faculties of various Departments as an interdisciplinary research initiatives promoted by university.

Collaboration with National/ International Institutes/Industries.

The students of many Departments of University had undertaken strong collaborative research with various National and International Universities and laboratories. Some research projects carried out are:

- **Mr. Osaama Ullah** – Bogota Columbia for 6 months with Rs. 65,000 /- monthly stipend and worked in education section of Mayors office
- **Mr. Almos Khalkho** – Taiwan for 6 months with Rs. 45,000 /- Monthly stipend and worked at a green-house fabrication company
- **Mr. Jahangir** – Russia for 2 months with no stipend but free accommodation and meals , worked as a volunteer under a project related to aerospace
- **Mr. Prabhat Singh** – Malang Indonesia for 6 months with monthly stipend of Rs.35,000 /- monthly and return flights, worked as an Executive Assistant in The Department of Mechanical Engineering in University of Muhammadiyah
- **Mr. Arjun Singh Rathode** – Nantes France for 3 months with no stipend worked in the Research Department over a project of solar based chimneys at PolyTech Nantes
- **Mr. Mahipal Singh Chundawat** – Nantes France for 3 months with no stipend worked in the Research Department over a project of Fluid Dynamic Equations using Comsol Multiphysics Software at PolyTech Nantes

- **Mr. Anant Shukla** – Bangkok Thailand for 3 months with no stipend will be working in the Research Department over a project of Internet Controlled Telescopes at Bangkok University.

Mewar University's Journal of Indian Research (JIR):

1. The Journal of Indian Research (RNI: xxxx; ISSN: (Online) 2321 -4155) is a quarterly peer-reviewed, online, open-access (OA), journal supported by an editorial board comprising of subject matter experts drawn from all disciplines.
2. The main purpose of the Journal of Indian Research or JIR is to bring into focus the latest developments in the field of research by academicians and students. JIR publishes research papers on the topics related to science, engineering, information technology, arts, social science, law, management, commerce, etc. We welcome papers on topics related to core areas of research as well as on interdisciplinary topics. Please send your articles to jir@mewaruniversity.org
3. The objective is to showcase the recent trends and current levels of academic research going on in our country as well as to disseminate the advancements in knowledge among the peer knowledge groups, be they academic or research institutions, across the world. Such dissemination of innovation in knowledge and academic viewpoints thereof will lead to cross-pollination of ideas, leading to further application of research in that particular field.
4. Journal of Indian Research aims to provide such a global platform to innovators and research scholars in every field of knowledge.
