Mewar University boasts a state of the art Audio-Video Lab that stands as a testament to its commitment to cutting-edge education and multimedia engagement. The Lab is equipped with Mic (RODE NT2A), audio interface (M AUDIO AIR 192/6), Monitor speakers (YAMAHA HS5), Mixing head phone, talk back Mic, recording head phone, bass traps, cable, Mic stand and advanced audio-visual technologies, providing students with an immersive learning experience. From interactive presentations to virtual simulations, the audio-Video Lab enhances the pedagogical approach; ensuring students grasp concepts in a dynamic and engaging manner.

The Mixing Equipment and Editing Facilities allowing students as-well as teachers to refine their skills in sound mixing, video editing and post-production. This facility bridges the gap between theoretical knowledge and practical application, preparing students for careers in media and entertainment.

Complementing these resources is the media studio facility, where innovation takes center stage. The studio is a versatile space designed for the creation of diverse media content. Equipped with cutting-edge technology, students can explore and experiment with audio, video and multimedia production. This hands-on approach empowers students to unleash their creativity while gaining a comprehensive understanding of the media industry.

All these facilities at Mewar University provide holistic learning environment, fostering the development of skilled professionals in the ever-evolving landscape of audio-visual production and media studies.
