Good Afternoon Dr. Gurnani,

Thanks for your follow-up email.

As we have the MoU in place we can decide and initiate the activities as per the mutual requirements of our organizations. I am attaching a flyer for our SHILP program for your perusal. I am looping in Dr. Manish Mathew, Head, TBD to lead this conversation from here onwards.

Thanks & Regards,

-Pramod

Dear Mr.Tanwar.

Good afternoon & greetings from Mewar University.

In continuation to our association and the memorandum of understanding we have, would like to initiate some joint activities having engagements of faculty members as well as students. To further deliberate on the same will look forward to have your opinion and would request for your contact number to get in touch with you for discussing on the same.

Looking forward to hear from you.

Regards.

Harish Gurnani.

Dear Dr. Gurnani,

I got stuck in some other meeting so couldn't connect back. Sorry for that.

The MoU needs to be printed on stamp paper (2 copies) and signed by Director and 2 Witness.
Share the physical copies with CSIR-CEERI for further signatures at this address:

Dr. Ajay Agarwal,
Head, Technology Business Development
CSIR-CEERI, Pilani

Registrar
Mewar University
Gangrar, (Chittorgarh)

*Dist: Jhunjhunu
Rajasthan - 333 031*

We shall retain one copy and send back another copy to Mewar University.

Let me know for any other query in this regard.

Thanks & Regards,
-Pramod

Dear Dr. Gurnani,

It was nice discussing with you about collaborating on academic and other CSIR-CEERI training programs.
As agreed, I am sharing a draft MoU to formalize our collaboration. Let me know if you need other information about this draft and SHILP program.

If Mewar University agree to this MoU, I shall update the steps to execute this.

Thanks & Regards,
-Pramod

Subject: Proposal letter from Mewar University.

Dear Sir,

Good Morning & Greetings from Mewar University.
Collaboration between industry & academia supports improvement and innovation in the industry and helps to ensure industrial relevance in academics. For addressing challenges related to competitiveness, organisations often look beyond industry partners to academic collaborations for innovation.
Talking about how Industry- Academia linkages will mutually benefit the two, students will learn & engage in real world problem solving as it brings together the applicability of theoretical knowledge in real life situations. Industry will find job ready students who need less training and are productive from the very beginning.
We at Mewar University have tried to address the requirement of such skilled manpower & accordingly developed the courses with Training / Internships as mandatory components of the course curricula. For this we have collaborated with MSME centers & have a strong association with

300+ companies located all across the country wherein we have been sending our students for their six months final semester internship. I am glad to share we have attach 8000+ students to various organizations located all across the country, where they have learnt & later based on their learnings majority of them have converted those internships in full time job opportunities.

For exploring such possibilities with your esteemed organization will look forward to have a interaction with your good self so that we can share the details at length & can work out a possible MOU on addressing such internship requirements and further possibilities.

Looking forward to your kind consideration and revert.

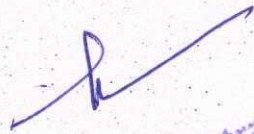

Regards.

Harish Gurnani.
