# **POLICY FOR PROMOTION OF RESEARCH**

**(Revised on 20.12.2022)**

## **MEWAR UNIVERSITY**

**NH-48, Gangrar, Chittorgarh, 3012901**

**[www.mewaruniversity.org](http://www.mewaruniversity.org)**

## **INTRODUCTION**

The University has a vision to foster research at par with national and international standards. The University motivates the faculty members and students to go for indexed research publications, funded research projects and collaborative research with industry and institutes of national and international repute. The University also motivates the faculty members to submit research projects to various funding agencies and provides the required monetary and infrastructural support to the faculty members and students to develop a strong research ecosystem. The University updates the research policy to promote and create a research environment in the university. The revised research policy will be effective from January 2023.

## **OBJECTIVES**

The objectives of this policy are:

- To strengthen the institutional research capacity and encourage its students, researchers and faculty members to do research for the betterment of society and provide a research-conducive environment by ensuring access to relevant resources and infrastructure.
- To foster collaboration and partnerships between educational institutes, Government and non-government agencies, industries and research organizations.
- To encourage and support the development and implementation of research projects innovative or interdisciplinary approaches or methodologies in the University by providing financial support, seed money, incentives and other resources to carry out research activities.
- To establish research centres, centres of excellence, specialized laboratories and other such units for research in the University.

## **RESEARCH PROMOTION POLICY**

The University has the following avenues for the promotion of research.

- The university provides academic leaves to the faculty members for participation in seminars, conferences, workshops, faculty development programs (FDPs), refresher courses, etc.

- The University also provides financial support in terms of registration fees, travel expenses, food and accommodation charges in actuals up to Rs. 10000 in an academic year to the participant.
- The University honours the faculty members with a certificate of appreciation for publishing research papers/articles in SCOPUS/Web of Science/UGC-indexed journals. The University also provides incentives of Rs 2000 per research article, Rs 2000 per chapter of a book and Rs 5000 for a complete book publication.
- The university promotes research and innovation by reimbursing the patent filing charges to the faculty applicant. An incentive of Rs 3000 is also provided for Patent publication and Rs 5000 for the patent award/grant.
- The University felicitates the faculty members at the University functions with a letter of appreciation for receiving State/National/International awards/fellowships
- The University promotes research by providing seed money funding to the faculty members to start a research project to support the development of innovative/novel ideas and to conduct collaborative research with their peers from reputed National and International Universities and Institutions.
- The University provides financial support for organizing national/international conferences, seminars, workshops, short-term courses and activities on socially relevant issues/topics.
- The University provides the faculty members with scholarships for pursuing higher studies and/or Ph.D. from the University itself and financial assistance for pursuing higher studies at any other institute of repute.
