Report of the Technical Fest/ Academic Fest

2021-22

Mewar University hosted the university-level technical event "Uni-Fest 2022" from March 22-31, 2022, on campus, with teaching staff and students from all branches present. The event was effectively led and executed by the Technical Event Committee, Uni-Fest.

Uni-Fest 2022 featured a series of annual technical and social events, including well-known competitions such as Minute to win it, Sharp with MS Office, Talent Race 5.0, Treasure Hunt, Best by West, and Nirmaan. These events are held each year to provide students with platforms to showcase their talents and innovation in a competitive environment.

Talent Race challenges participants with various skill-based tasks that test creativity and problem-solving abilities. Tech Made highlights innovative technology projects developed by students, encouraging them to demonstrate their technical prowess. Best by West focuses on practical and innovative designs, showcasing engineering ingenuity. Nirmaan is a unique event where students repurpose discarded materials to create functional and inventive items, emphasizing sustainability and creativity.

The fest comprised a total of 11 meticulously planned events, including a project expo, programming contests, and more, designed to cater to the interests and needs of engineering students while incorporating enjoyable elements. The event saw significant participation, with more than 150 teams registering for the one-day event, attended by more than 100 students.

In every technical competition, winners were recognized with certificates, trophies, and cash prizes to celebrate their achievements. Additionally, all participants received certificates as tokens of encouragement for their participation and efforts.

Report of the Technical Fest/ Academic Fest

2019-20

Uni-Fest 2020 University level technical event organized by Mewar University from March 12-19, 2020, on the university premises, with the presence of teaching staff and students from all engineering branches. The event was effectively managed and executed under the supervision of Mewar University's Technical Event Committee.

"Uni-Fest 2020" was part of a series of annual technical and social events, including Treasure Hunt, Tech-Expo, Best by West, Talent Race, and Constructo. These events are designed to provide a platform for students to showcase their talents in a competitive spirit.

"Talent Race" featured a variety of challenges that tested students' skills and creativity. "Tech Expo" focused on innovative technology projects, encouraging students to develop and present their tech solutions. "Best by West" celebrated innovative and practical designs by engineering students. "Junk-Yard" was a unique event where students repurposed discarded materials to create functional and inventive items.

The fest included a total of 11 well-planned and executed events, such as a project expo and a programming contest, which attracted significant participation. The types of events included in the fest were chosen by the fest coordinators, considering the interests and needs of engineering students, while also incorporating fun elements behind the scenes.

Winners of each technical event were recognized with certificates, trophies, and cash prizes, while all participants received certificates as a gesture of encouragement.

Report of the Technical Fest/ Academic Fest

2018-19

Mewar University hosted the university-level technical event "Uni-Fest 2019" from March 9-16, 2019, on the university premises. The event saw the participation of teaching staff and students from all branches and was successfully led and executed under the guidance of the Technical Event Committee.

"Uni-Fest 2019" was part of a series of annual technical and social events, including "Talent Race 4.0", "Tech Mate 3.0", "Best by West", "Constructo", "MU-Tuber", "Sharp with MS-Office and Tech Expo" These events aim to provide a platform for students to showcase their talents in a competitive spirit.

"Constructo - Bridge the Gap" challenges participants to apply theoretical knowledge to real-world engineering problems, fostering critical thinking and practical solutions. "Tech Mate 3.0" showcases cutting-edge technology projects, demonstrating participants' technical prowess and creativity in software, hardware, and electronics. "Best by West" focuses on innovative engineering designs that are both practical and inventive, celebrating creativity in solving engineering challenges. Lastly, "Text and Tell" promotes sustainability by tasking participants with repurposing discarded materials into functional and innovative products, emphasizing environmental consciousness alongside engineering creativity.

The fest featured a variety of events, such as a project expo and a programming contest. All the events were well-planned and executed, attracting significant participation. In total, 11 events were organized, focusing on the interests and needs of engineering students while incorporating fun elements behind the scenes.

In every technical event, winners were awarded by certificates, trophies, and cash prizes. All participants received certificates as tokens of encouragement.

OFFICE OF THE REGISTRAR

Ref. No. MU/RO/Uni-Fest/2018-19/ 2-168

22nd February, 2019

Office Order

Sub: - Uni-fest 2019 committees for arrangement of various events between 9th March, 2019 to 16th March, 2019

In continuous of the previous order No. Ref. No. MU/RO/201/2120 dated 16th February, 2019, the committee for the various events to be held as part of Uni-fest 2019 between 9th March, 2019 to 16th March, 2019 is being attached. All the members of the committees are requested to coordinate and organize the events proposed for the Uni-Fest 2019. The list of committees members to arrange for organize various events is attached.

Report of the Technical Fest/ Academic Fest

2017-18

Mewar University organized the university-level technical event "Uni-Fest 2018," organized by the Technical Event Committee, from March 12-19, 2018. The event took place on the university premises and saw the presence of teaching staff from all streams. Under the guidance of the Technical Committee, the event was successfully led and executed.

Uni-Fest 2018 was part of a series of annual technical and social events, such as Talent Race, Tech Mate, Best by West and Press Box aimed at providing students a platform to showcase their talents in a competitive spirit.

The fest featured a variety of events, including a project expo and a programming contest, all meticulously planned and executed to ensure maximum participation. With a total of 11 events, the fest was organized to the highest standards. The fest coordinators selected events based on the interests and needs of engineering students, while also incorporating fun elements behind the scenes.

The event was successful in attracting 156 team registrations, with over 100 students participating in a one-day event. A technical quiz competition was held, where students participated in teams of two. The competition comprised three rounds: the Elimination Round, the Audio-Visual Round, and the Rapid Fire Round. The Elimination Round was an online multiple-choice round with 30 questions to be solved in 15 minutes. Eight teams advanced to the Audio-Visual Round, where they identified audio, video, and image prompts. Five teams then moved on to the Rapid Fire Round, where they answered a series of questions in 60 seconds to determine the top three teams. Audience participation added to the excitement, with correct answers receiving prizes.

Winners of each technical event were awarded certificates, trophies, and cash prizes, while all participants received certificates as tokens of encouragement.
